CORDING (SELECT MODELS ONLY)
List prices DO NOT include any cording. Cording is available on select models & quantity at an additional charge, please inquire.
VINYL COM MATERIAL
100% vinyl fabric is not recommended for our cushions. If 100% vinyl COM fabric is chosen, the customer must provide a sample of the fabric before order will be accepted. 100% vinyl fabric is difficult to work with and requires special equipment to manufacture our cushions. They also require a vent fabric to be installed, because full vinyl cushions do not allow air to escape when compressed, and can cause the seams to split. Vent fabric will also need to be provided by the customer. There will be a 20% upcharge on 100% vinyl cushions.

CUSHION DETAILS

Misuse, alteration, or damage by natural or man made environmental elements voids any warranties written or implied

Color presented via swatches or website may vary to final fabric color due to dye lot production

Fabric swatches may be seen at www.emuamericas.com or requested from emuamericas, llc

Umbrellas should be closed in moderate wind conditions; moderate wind on the Beaufort Scale means that wind is raising dust and lifts sheets of paper off the ground. Damage due to wind is not covered under warranty.

Periodic maintenance is required for all Shade products

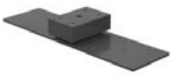

In case of damage, most parts for umbrellas are replaceable and available for purchase at www.emuamericasparts.com
